Our Reviews

We are pleased with Anson for his patience and passion to his works. He never leave us to handle the problems by ourselves even the renovation progress was not as smooth as we expected to. The team was proactive and ensures that the renovation complete within the target date. 8 months after the completion, we found some problem and tried to call Anson for solution but we couldn't get him thru phone call, so end up we just let it be. However, we received a call from Ken after a month, telling us his colleague Anson was no longer with DM+. He called to follow up on the renovation works which was done by Anson a year ago. We are really impressed with this follow up call! During the course of the touch up works, Ken kept us well updated. We could just leave it all to him and enjoyed our own sweet time. Appreciate his responsiveness and every effort to rectify all the defects even after a period of time. Good job! DM+.

House Owner - Vanessa

We have found DM+ to be very professional and co-operative in their approach. They have the capacity for new ideas, many of which were implemented with good results. Their designer looks young but please do not underestimate their capabilities especially in design which they displayed great passion to give their professional views. They are good in listening to your needs and thoughts and able to communicate freely before finalizing our overall design concept. The team also shown magnificent maturity in handling problems or issues during the construction of our house and ensure the quality of their work continues to be of a high standard. The end results were what we expected and I just can sum all this into 3R: Responsive, responsible, and reliable!

House Owner - Agnes

I got to know about DM+ from my friend and he introduced me to Kenson who liaise with me throughout the project. It was a very enjoyable and smooth process with them. At the start, they learnt more about what I wanted first and provided me with lots of information on what they can do and their suggestions. Since it is my first house renovation and I wanted to see other options so I took a while to get back to them, in the end, I decided to settle on DM+ as their pricing is not too cheap or too expensive which is great because I can ensure quality and still meet my budget. During the project, they were also efficient and professional throughout. There are bound to have some impromptu issues or concerns, but they are always quick to explain it clearly to me and provide me with different solution to consider. After living in this house for awhile now, all I can say is that my family, and I enjoyed every part of the house a lot. Really thankful for my friend to recommend me about DM+ and thankful for Kenson and his team's quick replies, efficient, professional, and great service since the start of the project till the end of the project.

House Owner - Sheryl

As a perfectionist, I had lots of expectations throughout the renovation, especially when this is renovation for my first home. After lots of researching on the internet and getting quotes from different companies, I have decided to engage DM+ as they seem to have the most worth for value and have an in-house workshop with experience carpentry workers. I am very glad to say that DM+ did not let me down and was able to meet my standards. Furthermore, due to my indecisiveness and attention to details, I always go back to them and ask whether can change this or that and ask them if it is better done some other ways. But they were always so patient, insightful, and professional when it comes to the details of the carpentry works, and always advise me what is the best solution for my concern and doubts. We would like to thank the DM+ team for being so attentive to details, professional, insightful, patient and most importantly making out first home renovation an enjoyable and beautiful one for us! Really love how my home is now and everyone that came to our house are always in awe with the high-quality carpentry works and the design of it.

House Owner - Lydia

Me and my wife was looking for ID contractors to build a master bedroom platform and also a decking platform at our balcony. DM+ was selected out of countless ID contractors we approached as apart from being competitive in price, they are responsive, thorough and honest in the early stage. Their carpenter and workers are professional and very detailed, they help us to touch up the paint of our partition wall at the TV area even when the dirt is not done by them. Although there was a crazy rush in completing our project, their works were not compromised. Their workmanship remain good. We are definitely satisfied with DM+'s fine quality and competence in price and shall not hesitate to recommend their services to our friends and family in the future. Thanks for the nice work!

About Page

[Projects](#) [Reviews](#) [About](#) [Contact](#)  

Our Story

Established in 2009, previously known as Dminex, where we focused on carpentry services for residential and commercial design. We have since rebranded to today's DM+, where we expanded into specializing in residential interior design and build.

Our goal is to design a unique and innovative solution that have a perfect balance between functionality and aesthetics.

Our clients engage us as we have an in-house carpentry where we can ensure high quality production and end-product at affordable prices. We are also committed to provide the best service to our clients even after design project's completion.
